

MF Battery
GS Shield

For export market only

GS Shield Battery uses lead calcium alloy (Pb-ca) material on both negative and positive plates to ensure that the rate of charge loss (self discharge) to beat its lowest level, making the engine easier to start up even in cold weather conditions or when the car is rarely used.

D. GS Shield (Maintenance Free)

(*) 20 HR capacity is based on calculation (approximately)

Strong Points GS SHIELD

- Premium Quality Material
- Good Packaging (Offset Design)
- No Need to Maintain The Battery (No Need Water Addition)
